

## **Zulal Water Technology completed EPC Project for New Sea Water Reverse Osmosis Plant at Zawia Tank Farm**

**Tripoli, 31<sup>st</sup> July, 2023**

Zulal Water Technology ("ZWT") announces the **successful on-time completion of EPC project for Akakus Oil Operations ("AOO") for New Sea Water Reverse Osmosis Plant (SWRO)** complete with all pre- and post-treatment systems for Zawia Tank Farm. The total production capacity of New SWRO plant is 150m<sup>3</sup>/day. The EPC contract was signed by AOO on 26<sup>th</sup> December-2022 and Zulal successfully commissioned the plant in mid-July, 2023; and handed over to site with one-week hands-on site training to AOO engineers and technicians.

**Engineering, Projects & Corrosion Manager of AOO**, said: "The new SWRO plant has advanced technology. Within short time frame, the project execution by Zulal is impeccable and very much to our satisfaction. The new SWRO plant adds value to AOO Zawia camp assets and has saved AOO from expensive commercial water sourcing. We look forward to working with Zulal on future projects."

**Iftikhar-ul-Haq - Managing Director of ZWT**, commented: "The on-time completion of this project reflects ZWT's strong project management and execution skills. The new plant is meeting AOO needs and producing good quality drinking water from Libya's highest feed water salinity. We equally look forward to working with AOO again."
